

# CaseSearch

CaseSearch is a comprehensive archive of case records, dating from 1502, which provides procedural history, annotations, keywords and summaries. A traffic light system takes into account both the procedural history and the subsequent judicial consideration of a case. These are explained below.

To access the CaseSearch Search form:

- Click on the **Cases** search tab and then click on **CaseSearch** under Cases Searches on the right of the screen.

The screenshot shows the LexisNexis CaseSearch interface. At the top, there are navigation tabs: Search, Practice Areas, Sources, and My Research. Below these are sub-tabs: Home, Cases, Legislation, Commentary, Forms & Precedents, Journals, Current Awareness, and News. The main search area is titled 'CaseSearch' and includes a search input field with the placeholder 'Enter Search Terms' and a 'Search' button. Below the input field are sections for 'Select Sources' (set to CaseSearch), 'Case Name', 'Citation', 'Judgment Date', 'Summary', and 'Court'. A sidebar on the right contains 'Cases Searches' with a list including 'CaseSearch', 'Quantum', 'Indians (Cases)', and 'International Cases'. A red circle '1' is placed over the search input field, and a red arrow points from the 'CaseSearch' link in the sidebar to the search form.

- Construct your search using keywords, individual fields (such as Case Name or Citation) or a combination of both. Then click on **Search**.
- Search Results will be displayed outlining Cases Name & Citation, Court/Tribunal, Judgment date and Signal.
